	=Scores from Finnish Kennel Club (KoiraNet)
	=Scores from copy of certificate held in Breed Archive
	=Data is unavailable from all the above sources

KC/BVA HIP DYSPLASIA SCHEME - FINNISH LAPPHUND HIP SCORES

This information is reproduced by kind permission of the Kennel Club in the UK.

Overleaf is a list of hip scores for Kennel Club registered dogs of the Finnish Lapphund breed, together with their sire and dam, giving the date that they were hip scored, the score for the right hip, the score for the left hip and the total hip score for each dog. The maximum score for each hip is 53 making the total possible 106. There is a breed mean score (BMS) for each breed, and breeders are encouraged by the KC to use only dogs and bitches with scores well below the BMS for breeding.

The current BMS (Breed Mean Score) for Finnish Lapphunds is 13. The aim is to reduce the BMS year on year. The BVA advises that breeders wishing to reduce the risk of hip dysplasia should choose stock with scores WELL BELOW the breed mean scores (BMS).

The report contains all those hip scores that have been sent to The Kennel Club by the British Veterinary Association (B.V.A) since September 1991, and all those dogs tested prior to September 1991 which scored 8 or below (with no more than 6 scoring on one hip). Prior to September 1991, dogs scoring more than 8 (or those which had scored more than 6 on one hip) were not sent to The Kennel Club for publication and would therefore not appear in this report.

Further information on this scheme can be obtained from The Kennel Club or the British Veterinary Association. See club website (Health) for links.

If you cannot find the hip result that you need, then please contact the Health Co-ordinator for the breed: health@finnishlapphund-club.co.uk for assistance. In the Breed Archive we hold older records and will be pleased to provide them.

HIP SCORES IN OTHER COUNTRIES: COMPARISON WITH BVA/KC SYSTEM

The table compares the scores recognised by the Fédération Cynologique Internationale, (FCI) / British Veterinary Association, (BVA) / Verein für Deutsche Schäferhunde, (SV) / Orthopaedic Foundation for Animals, (OFA).

Source: BVA 28 Oct 09

The Manager of the Canine Health Schemes at the British Veterinary Association, www.bva.co.uk has issued this list with advisory notes as follows:

- Final grading is based on the appearance of the worse hip joint.
- *UK scores here are for One joint only.
- The data was prepared in 1998. The schemes will have changed since then.
- The table provides a rough comparison only.

FCI	BVA*	SV	OFA	Switzerland	Sweden
	One joint only UK / Australia				
Finland and other European countries		Germany	USA		
A Normal hip	0	A1	Excellent	0	0
	1-3	A2	Good	1-2	
B Borderline	4-6	B1	Fair	3-4	
	7-8	B2	Borderline	5-6	
C Mild HD	9-12	C1	Mild	7-9	1
	13-18	C2	Mild	10-12	
D Moderate	>18	D1	Moderate	13-15	2
		D2	Moderate	16-18	
E Severe HD		E1	Severe	19-21	3
		E2	Severe	22-24	4

Note that for the FCI score, the worst score for right or left hip is taken as the overall score e.g. If A/C then C is the overall score for that dog.
